Our Solution

Last Mile Delivery For Online Shop

- Make E-commerce fulfilment operations easy by partnering with online store owners.
- Deliver their goods to Ugandan customers across 135 districts.

Document Handling

- Provide the bulky documents delivery service to clients, such as insurance companies and financial institutions..

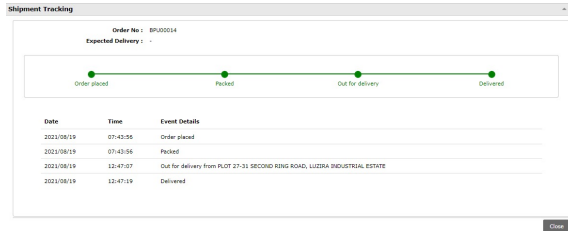

Debtor Verification

- Link sender and receiver to stay in touch with the debtor.
- Verify the exact person and the physical address through the delivery operation.

Core Features

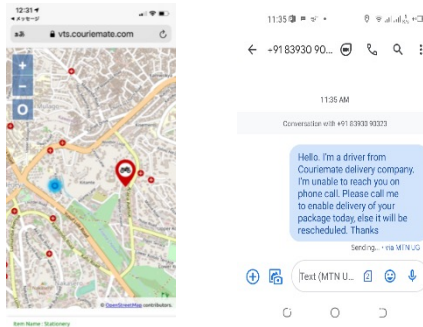

Track & Trace

- For sender / owner of goods, Our IT platform share the delivery status.
- Sender / owner of goods can check the delivery status from anywhere.

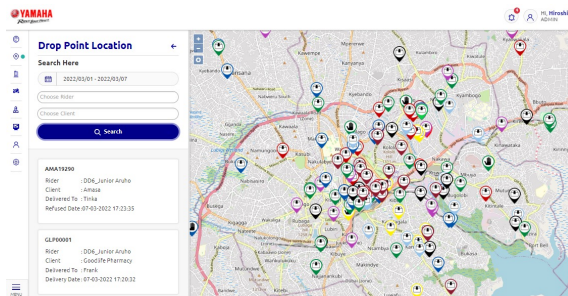

Two-way communication

- Receiver can know the rider's location and estimated time of arrival through the browser and SMS.

Record of Drop Point Location

- Even if the address system is not available, this platform helps our rider and operator to provide the efficient delivery operation based on the delivery history.

Thank you
