BANGLADESH COMPANY PROFILES

JENNYS SHOES LIMITED.

www.Jennysshoesltd.com

Jennys Shoes Ltd. is a leather footwear manufacturer, exporting to the European, Asian, and American markets for over 30 years. We have a composite of manufacturing infrastructure, such as a leather finishing tannery, outsole/insole manufacturing, material and chemical storage units and bonded warehousing, all complementing the footwear manufacturing process. We are always looking to grow our network and working to attract new business opportunities. At our factory, Five-R Footwear Ltd, we have a production capacity of 2000 pairs a day.

Jennys Group is now setting up and working on a new project in Gazipur, the industrial zone of Bangladesh, creating “Bangladesh Shoe City” Limited (BSCL). The project is focused on the infrastructural development of an industrial enclave in the industrial heart of Bangladesh. The goal is to help facilitate new investors into production in Bangladesh, providing end-to-end facilities with full infrastructural set-up such as building infrastructure and administration support, with other external shared facilities.

The major beneficial factors of Footwear and Leather goods manufacturing in Bangladesh and BSCL include: Cost-Effective Labor, Duty-Free Exports, No Investment for Land/Building, and Export Cash-Incentives. There are various varied benefits for both footwear manufacturers and material/component manufacturers.

- **For Footwear Manufacturers:** Setting up operations cheaply and efficiently, utilizing shared services of BSCL, all secondary and tertiary industries present together, taking advantage of trade benefits of Bangladesh/Private Zone(BSCL), having access to skilled and semi-skilled labor.
- **For Material/Components Manufacturers:** Having strong marketplace with established customer base wanting to source materials locally, making prompt delivery local companies and having prompt delivery to factories within BSCL, having materials in-house will save money and reduce lead time, having external facilities such as ETP already set-up as a BSCL shared facility to ensure compliance standards.

Cooperation with Japanese firms:

- Five R Footwear is seeking potential buyer for exporting their leather footwear and finished leather to Japanese market.
- Five R Footwear is seeking a potential joint-venture partner for production with all technical assistance for worldwide export.
- For infrastructural development, BSCL is seeking technical and financial support for developing this project, following total compliance standards
- BSCL wants to invite investors and manufacturers to set up their production units in BSCL and take advantage of the numerous benefits offered.

Mr. Nasir Khan is the founder of Jennys Group and has been a pioneer in leather and shoe sector for over 30 years in Bangladesh. After graduating from the university in Japan, started the leather export business, and was the very first exporter of leather to Japan. He started moving into footwear production from 1991, and exporting predominantly to Japan and later on expanded to the European market (Email: jennys@optimaxbd.net , rian@jennys.com.bd)
