Water infrastructure business
Realize Water as a Service

Y's Global Vision, Inc.

December 2020

Y's Global Vision Inc., Corporate Profile

Corporate Profile

Company name:	Y's Global Vision Inc.
President :	Yoshihumi Yanase
Head office :	5192-47 Katsuren Haebaru, Uruma City, Okinawa, Japan 904-2311
Tokyo Office :	501 Hamamatsucho Forum Building, 1-28-13, Hamamatsucho, Minato-ku, Tokyo
Contact :	TEL +81-(0)98-923-1432 FAX +81-(0)98-923-1872
Established :	20th / September / 2012
Capital :	295,800,000 JPY
Employees :	30 (Including 11 Engineers)
Business :	Building Micro Water Infrastructure
HP :	http://ysgv.jp/

Y's Global Vision Inc., Corporate Profile

Corporate Profile

- ◆ Patented design of RO membrane housing
 - Half the size, weight and price of competitor's
 - Low-power consumption design

Patent

- ◆ Won Fuji Sankei Venture Award among 200 companies

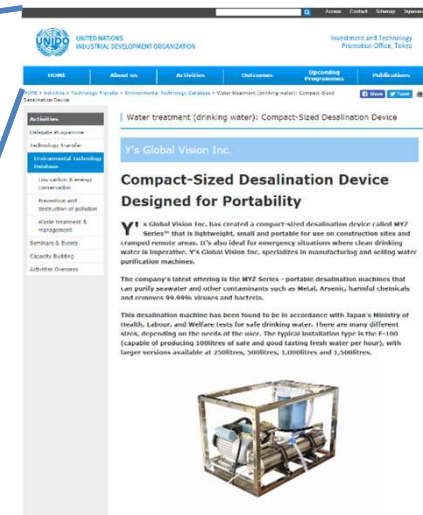

Y' s Global Vision Inc., Corporate Profile

Corporate Profile

- ◆ Raised funds of 5 million USD
 - Okinawa Local Government Fund
 - Mitsubishi UFJ Capital
 - Toda Construction (6th ranked General Constructor)
 - Industry fund by Shimadzu, Maxell, and DMG Mori
- ◆ Registered by United Nations Industrial Development Organization (UNIDO)

UNITED NATIONS
INDUSTRIAL DEVELOPMENT ORGANIZATION

Niche & huge market for compact desalination 1/3

Small ship

◆ Huge market

- Adopted in many offshore fishing boat less than 10t in addition to hundreds of tons of Deep-sea one
- Yammer adopted our devices on their catalog

Yammer Catalog

Deep-sea fishing Boat 400t

For less than 10t & pleasure boat

Niche & huge market for compact desalination 2/3

Construction site

- ◆ Lots of sites with no water
 - Use for many construction sites such as at riverside, by coastal area, and in isolated islands
 - Accredited by NETIS of Ministry of Land, Infrastructure, Transport and Tourism for construction work

Niche & huge market for compact desalination 3/3

Hotel & Facility

◆ Uninhabited island

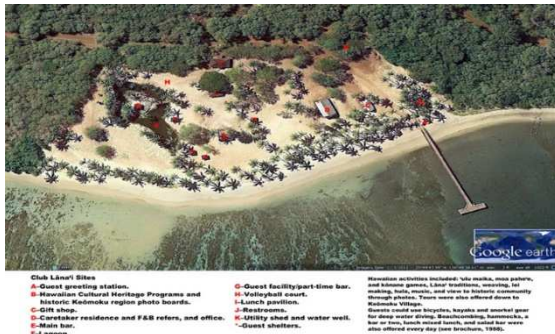

- Installed small device for camp cottage at Seto Area (1t/d)
- Installed device for small attraction island (1t/d)

◆ No water area on the seashore

- Installed small device for Pension in Okinawa (1t/d)

◆ Small island (2020 summer)

- Camp site for Hawaiian remote island (1t/d)

65 1/2

長崎県 佐世保市のテーマパーク、ハウステンボス（HTB）は4月28日、新しいアトラクションをオープンする。場所は、HTBが面する大村湾の無人島。島内の森林を歩き回って探検しながら、現実の風景に映像を重ねる拡張現実（AR）の技術を使い、スコープ越しの視界に現れる恐竜と「対決」するゲームだ。

Desalination device of Y's Global Vision Co., Ltd.

世界中で活躍するワイズグローバルビジョン株式会社の淡水化装置

販売実績 Sales Results

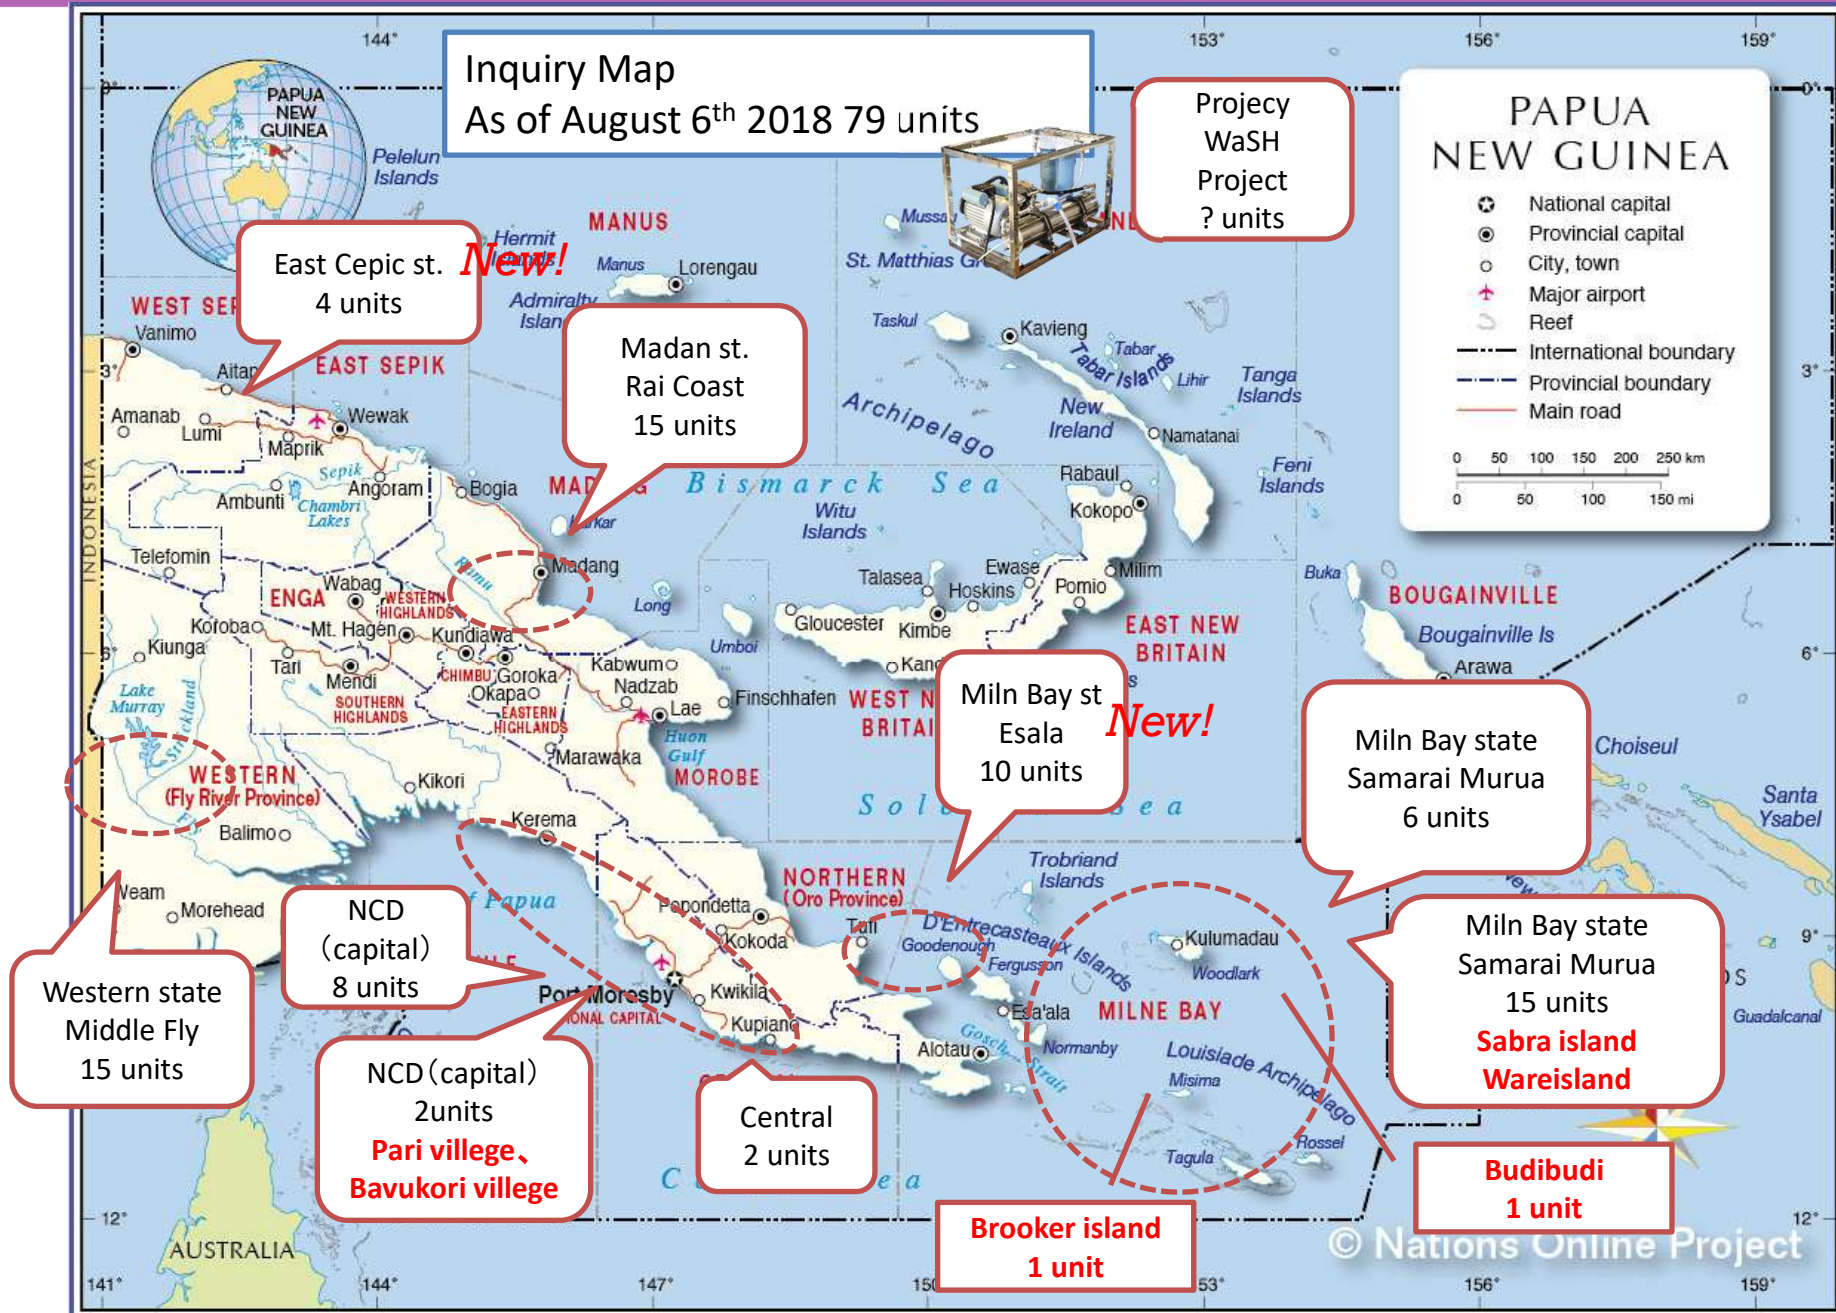

- 日本 Japan
- パプアニューギニア Papua New Guinea
- フィリピン Philippines
- ベトナム Vietnam
- インドネシア Indonesia
- ラオス Laos
- タイ Thailand
- スリランカ Sri Lanka
- 南アフリカ South Africa
- ペルー Peru
- チリ Chile ...

既に 11 か国以上への販売実績。今後ますます淡水化装置の需要は高まっています。

Already sold in over 11 countries in the world. Demand for our desalination device will increase more and more.

Inquiry & achievement of Papua New Guinea

Installation example in Papua New Guinea

Brooker Island (only 200 population)

◆ Use our device by solar & windy power

➤ Device with small electricity consumption broaden easily

Local paper says our name and project

Is this Brooker Island?

Japanese technology transforms life on a faraway Milne Bay island

By ALPHONSE BARAKSI

WHEN the lights first came on in this remote, mountainous island...

higher output and additional power for a freezer which is being used to store fish...

When the lights were installed on the island, some residents worried...

Project manager Jack Taki (second left) and his team on the way to Brooker to install water desalination unit earlier this month.

Workers taking a look at the desalination unit.

Wind turbines going up to provide power for the water desalinator, lights and refrigeration.

Mitsuo Onizuka speaking to an official during a product launch in Abu Dhabi last January.

Wind turbines installed in Brooker Island.
