

IJCCI INDUSTRIAL DELEGATION TO JAPAN

September 2018

A brief Profile of Delegation Members

INDO-JAPAN CHAMER OF COMMERCE AND INDUSTRY

21, KB Dasan Road, Teynampet, Chennai 600 018, Tamilnadu, India.

Tel: 0091-44-2435 2010 / 2435 4779 / 4855 6140 E-mail: indo-japan@ijcci.com Web: www.ijcci.com

The Indo-Japan Chamber of Commerce and Industry (IJCCI), established in 1989 is an all-India bilateral Chamber for strengthening Japan-India relations in educational, cultural and economic activities.

IJCCI's Language School offers tailor-made courses to individuals, businessmen and corporate houses. The *Nihongo Kouryuu Kurabu* of the School facilitates interaction among Japanese language students in the city and the Japanese community. The monthly programmes of the Club also help students understand and appreciate Japanese arts and culture through planned programmes. IJCCI conducts a number of Japanese & Indian cultural programmes from time to time. IJCCI Bonsai Chapter teaches Bonsai to the members.

The Centre for Japanese Studies is bringing out a bi-monthly Newsletter and a Resource Paper on different facets of Japan-India cooperation and a quarterly Research Paper by scholars. IJCCI is trying to establish close connections with Management Institutions and Industrial Training Institutions to introduce Japanese Management Techniques among SMEs of India. It is also trying to interact closely with Universities of Japan to facilitate interactions among scholars and academicians with their counterparts in India.

The Economic Wing of IJCCI works to facilitate match-making between potential entrepreneurs of Japan and India. It receives Japanese delegations and organises business networking programmes with Indian counterparts; organises delegation visits to Japan and provides business /economic information on Japan and India for the Japanese and the Indian business men; organises business seminars on Japan-India cooperation.

The Indo-Japan Chamber of Commerce and Industry looks forward to strengthen the bilateral activities and make Japan-India relations a symbiotic one.

Mr. N. Kumar

S. Narasimhan holds a Masters Degree in Science and Business Administration has done specialisation in Marketing, Information System and Operations Research. After spending about eight years in Middle East in reputed IT Companies such as WANG, AT&T, Microsoft, he decided to move to India to take on the Vice Chairmanship of Sattva Group and steer the operations by establishing various units in India. He was the Past President (2015-16) of CII Pondicherry and present member of Southern Regional Council of CII and also is a member of various Trade Associations.

Sattva Group has been in the business of CFS/ICD's since 1998 and has units across Eastern India through its other group entities. The group is seriously looking for acquisitions to be present pan-India. The industry currently has a positive outlook with the government initiating various steps to expand the infrastructural and management base of the key ports of the country such as SAGARMAALA. It is a strategic and customer-oriented initiative of the Government of India to modernize India's Ports so that port-led development can be augmented and coastlines can be developed to contribute in India's growth.

Since its inception, Sattva has relentlessly marched towards one goal; to be distinct and different and add a new meaning to the products and services that are offered to a vast array of companies and individuals and more important, keep their own demands satisfied. It is in **pursuit of excellence** that the group has carved a niche for itself, earning the respect of a growing list of clients for dependability and integrity.

Mr. Sambhu Lakshmanan

Chief Executive Officer, RedBlackTree Technologies Pvt. Ltd.

Address of Organisation :

No. 8, Laliitha Nagar 1st Street, Papanasam Sivan Road, Santhome,
Chennai 600 004, Tamil Nadu, India.

Tel: 0091 44 4353 3706 / 4353 3707 / 4353 3708 / 0091 98400 44665

Email: sambhu@redblacktree.com Web: www.redblacktree.com

RedBlackTree is a product development services firm based in Chennai, India. We have, over the last 16 years, established a strong track of building and delivering high quality software products on time. Founded in 2002, the firm has served customers located primarily in the US, Canada, Europe, Australia, Singapore and India.

We work with startups, small to medium size firms and with large multinationals. Our engagements with customers range from designing and building quick prototypes, to building full-scale products and to large multi-year software development engagements. We use multiple models to partner with customers, including building new startups around the products we build, co-investing in our startup customers, as also project based, multi-year software development contracts. We have created success for our customers – with many of them getting acquired and with many having raised millions of dollars in Venture Capital, including from firms like Andreessen Horowitz. Most of our customer relationships are long term and span across years.

Our work spans multiple industry verticals, including Healthcare, Fintech, EdTech, Travel & Tourism, Industrial Automation and Justice Technology. We have always been on the cutting edge of technology, having built high fidelity mobile apps, SaaS model systems and large, high volume, high velocity databases. We specialize today in building solutions with AI, Blockchain, IoT and Augmented Reality.

We look forward to working with firms in Japan and to creating long term value for all our customers.
