

# Mobile water purifier and seawater desalination system

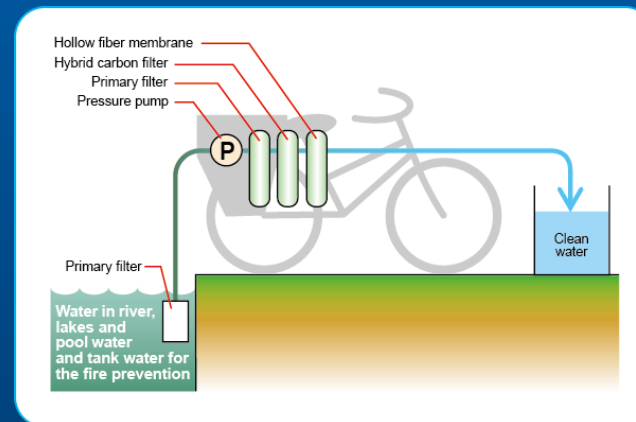

# Bicycle type Mobile water purifier

A water purifier that provides safe drinking water, which uses pedaling force to pump raw water and pass it through a high-performance filter.

**It is effectively used in areas with poor water conditions.**

NEW *Cycloclean*®

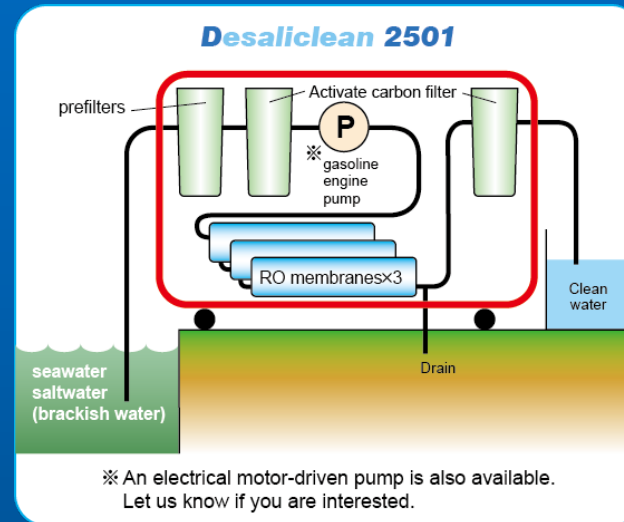

*Cycloaqua*

# Mobile seawater desalination system

Desaliclean series is a system that can condense the equipment as a large-scale water purification plant into a compact size and transport it.

## If you are drinking salty water.....

**Desaliclean™ 9000**

**Desaliclean™ 12000**

**Desaliclean™ 2501**
