

Wind Energy for All

KH KOMAIHALTEC Inc.

Our Company: KOMAI HALTEC INC.

Steel Bridge Design,
Fabrication and Installation

Steel Structure
Fabrication

Wind Turbine and
Sky Solar System

300kW Wind Turbine: KWT300

COMPACT

- 300kW Capacity
- 40m tower, 16m blades
- Truck transportable

ROBUST

- Survival velocity: 70m/s, 91m/s
- Highest turbulence intensity
- Reliable

FLEXIBLE

- Output control for microgrids or captive use
- Customizable system

Past projects

Romblon Islands, Philippines
- Microgrid with E-bikes

•Kamchatka, Russia
•Cold Climate Model

•Oaxaca, Mexico
•UNDP project

•Wangdue Bhutan
•ADB project

•Fukushima, Japan
•Advanced Tech Institution

Use Cases for KWT300

For Islands

To replace diesel powered electricity

For Factories

to manufacture green powered products

Distributed energy system

For community scale wind energy projects

For Resorts

To supply green energy to its guests
