

List of Project Sheets

Textile:

- Conversion of solid waste from leathers into agricultural fertilizers.
- Production of 3,000 tons per year of wool, polyester and acrylic yarns.
- Production of 10000 tons per year of non-woven fabrics.
- Production of ferry fabrics (1 000 000 linear meters/year).
- Production of synthetic fibers and yarns -polyesters (20,000 tons / year).

Electrochemistry:

- battery production unit and stationary batteries for solar and telecommunications energy solutions.
- recycling and refining lead.

Anticancer Medicines:

- manufacturing pharmaceutical anticancer products in solid and injectable form.
- manufacturing Antibiotics Cephalosporin in dry form, powder for injection and oral suspension.

Mechanics:

- Manufacturing and marketing of boats in fiberglass for fishing and boating.
- Manufacturing and marketing of handling Equipment.
- Production and marketing of electro pumps groups and motor-pumps.
- Production and marketing of Valves and Accessories, for Hydrocarbon Sector.
- Production and marketing of drill heads for drilling (Hydraulic and petroleum sectors).

- Implementation of Centre specialized in:
 - ✓ Design and manufacturing of tools and tooling products
 - ✓ Machining of unitary mechanical parts.
- Production and marketing of new products Taps and accessories in the sanitary and gas field
- Production and marketing of fastening systems (bolts, screws, and other items and fastening systems) for the automotive industry, engineering and metal construction.
- Production and marketing of concrete batching plants.

Industrial Vehicles:

- Production and marketing of small trucks.
- Production and marketing of coaches (auto-cars).
- Production of parts and components in sheet metal stamping.
- Crude production by hot forging process (Axles and engines).
- Mechanical Machining and Axles Production.
- Subcontracting in the Industry of Automotive and Mechanics (Wheels rims production).
- Subcontracting in the Industry of Automotive and Mechanics (Exhaust lines production).
- production of Small and middle part body assemblies for automotive.
- Subcontracting in the Industry of Automotive and Mechanics (Rotating Mechanical Parts: Brake Discs, Calipers and Brake Pads).
- Subcontracting in the Industry of Automotive and Mechanics (Coil springs).
- Subcontracting in the Industry of Automotive and Mechanics (Aluminum foundry).
