Technology Transfer Programme

UNIDO ITPO Tokyo's

STePP

Sustainable Technology Promotion Platform

More than 100 Japanese commercial technologies to address **energy, environment, agribusiness and human health issues** (as of June 1, 2020)

http://www.unido.or.jp/en/activities/technology_transfer/technology_db/

The screenshot shows the website's navigation menu with categories: ABOUT US, ACTIVITIES, OUTCOMES, UPCOMING PROGRAMMES, PUBLICATIONS. The 'Activities' section is expanded to show: Delegate Programme, Technology Transfer, Sustainable Technology Promotion Platform (STePP), Energy Technologies, Environmental Technologies, Agribusiness Technologies, Human Health Technologies, Seminars & Events, Capacity Building, and Activities Overseas. The 'Environmental Technologies' section lists: Pollution Prevention and Control (23), Waste treatment and management (14), and Circular Economy (3R) (15). Below this, three technology entries are visible: 'Bioremediation: EcoClean and GreenClean Series for Bioremediation' by EcoCycle Corporation, 'Black Smoke Removal Device of Cassette Type (Diesel Particulate Filter) "MoCobee CT"' by COMOTEC Corporation, and 'Electrodialysis using ion exchange membranes' by AGC Inc.

Benefits for Japanese companies

- ✓ Matching platform for technology owners and beneficiaries
- ✓ Promotional supports (i.e. PR video and an exhibition etc.)
