

# To the Audience: How to listen to the interpretation

## I. Preparation before the date of the Seminar

- 1) Please prepare an additional device (smartphone, PC, or tablet ) to listen to remote simultaneous interpretation.
- 2) Be sure to update your OS to the latest version before attending the event.  
Compatible OS : PC : Mac/Win Chrome  
Mobile : iOS Safari / Android Chrome
- 3) Interpretex runs on Wifi or 4G/5G.  
4G/5G experiences less disruption.  
Communication volume of 40MB/hour will be used.
- 4) When using a Bluetooth headset, noise may occur. **Wired earphones** are preferable because they experience less noises.

# To the Audience: How to listen to the interpretation

## On the Day of the Webinar:

- 1) **On the additional device, tap the provided URL on the additional device, 15 minutes before the opening of the webinar.** The browser of the device will automatically connect to interpreteX server. (You do not need to install an app.)

You do not hear anything by clicking [Play] before the interpretation test broadcast begins.

- 2) Use the volume control function of your select device, to control the volume of interpreters' voice.
- 3) If disconnected, reload by pressing [Reload] or restart by connecting to the URL again.
- 4) If you experience audio interruptions or disconnections repeatedly, turn Wi-Fi off and connect to 4G/5G mobile line.

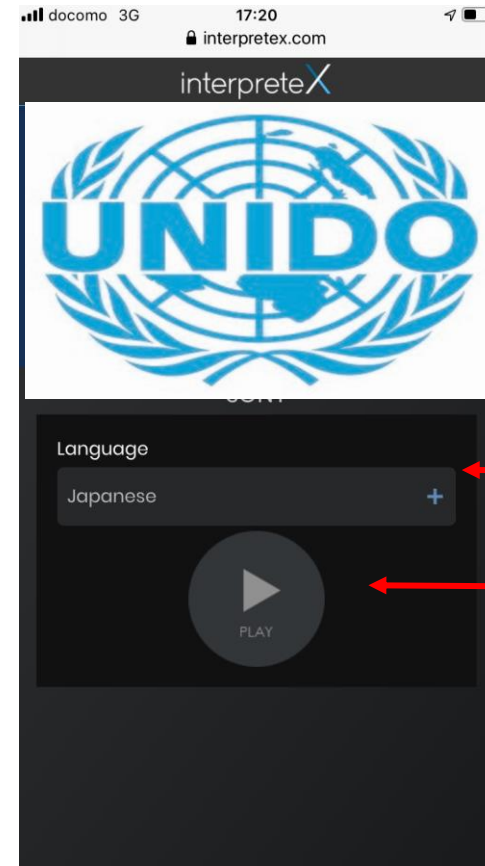

**Audience console is shown on the next page..**

**\*\*We will help solve unexpected difficulties of yours during the event. Please write to us through webinar chats.\*\***
